1. **What is this weird site? (100 points)**

Go to the site. https://mathurninaad.github.io/webexctf/

Step 1) Changing the value of the cookie.

Step 2) Inspect the html part of the site.

You'll get the second part of the flag here.

Step 3) Inspect the css file.

Step 4) Go to the hidden script.js file with the help of the hint in the html file.

```
// Function to get a cookie value
// Where is the other script?
```

script.js

```
function openTab(tabName,elmnt,color) {
    var i, tabcontent, tablinks;
    tabcontent = document.getElementsByClassName("tabcontent");
    for (i = 0; i < tabcontent.length; i++) {
        tabcontent[i].style.display = "none";
    }
    tablinks = document.getElementsByClassName("tablink");
    for (i = 0; i < tablinks.length; i++) {
        tablinks[i].style.backgroundColor = "";
    }
    document.getElementById(tabName).style.display = "block";
    if(elmnt.style != null) {
        elmnt.style.backgroundColor = color;
    }
}

window.onload = function() {
    openTab('tabintro', this, '#222');
}

/* I don't want google to index my website. Please help me with that!!!! Yup! I'm still learning*/
```

Step 5) Go to robots.txt using the previous hint. This points to .htaccess

Content of .htaccess

```
# Part 5: g_R1ght_
# You know just use the flag created so far, and find something good
```

Step 6) Go to the url containing the flag created so far.

https://mathurninaad.github.io/webexctf/hacks%7BWHOO_th3_U1_1s_4m4zing_R1ght_

Here, you'll find the last part of the flag

```
(data (i32.const 1024) "HAHAHAHA Final Part: gu7$?}\00\00")
```

Final Flag: hacks{WHOO_th3_U1_1s_4m4zing_R1ght_gu7$?}
